

Joint statement from the Office for Intercollegiate Services (OIS) and the UCU Justice For College Supervisors Campaign following the meeting on 11/05/2023

We met on the 11th of May and had productive discussions on the Justice for College Supervisors Campaign demands regarding a pay rise and payment for attending mandatory training. We expect a further update on the status of payment for attending mandatory training soon. We also expect that our discussions will lead to a concrete proposal on a pay rise in the near future.

Moreover, a joint survey seeking to better understand the landscape of supervisions across the colleges will be launched soon. Both the OIS and the UCU encourage as many supervisors as possible to take this survey.

We will meet again in June to discuss the Justice for College Supervisors Campaign demand for secure contracts for all supervisors.
